Market Summary

RENO, Nev. – The Reno/Sparks Association of REALTORS® (RSAR) today released its April 2019 report on existing home sales in Fernley, including median sales price and number of home sales in the region. RSAR obtains its information from the Northern Nevada Regional Multiple Listing Service (www.nnrmls.com).

The April 2019 report indicated that Fernley had 55 sales of existing single-family homes, a decrease of 4 percent from April 2018 and a 17 percent increase from March 2019. The median sales price in Fernley for an existing single-family residence in April 2019 was \$265,000; a 7 percent increase from April 2018, and a 2 percent increase from last month. All sales numbers are for existing “stick built single-family dwellings” only and do not include condominium, townhome, manufactured, modular or newly constructed homes.

“The increase in median price and unit sales from April shows that our market is gaining momentum and people are ready to either move up into larger homes or begin downsizing based on family needs,” said REALTOR® Angelica Reyes, 2019 RSAR president and managing broker for The Right Choice Realty. “We are optimistic that our months’ supply of inventory will increase now that we are headed into the spring and summer.”

The Reno/Sparks Association of REALTORS® is an organization providing services to its members to ensure their success as real estate professionals, as well as protecting and promoting the consumer's dream of homeownership. For more information visit www.rsar.net.

Glossary

Active Inventory Units is the number of Active properties available for sale at the end of the month., based on the List Date, Contract Date and Sold Date. This may change over time as properties fall out of contract.

Days to Contract is the Average number of days between when a property is listed and the contract date when an offer is accepted.

Median Sold Price is the mid-point where the price for half of the sales are higher and half are lower. Median is preferred to average as it better accounts for outliers at the high or low end of the price range.

Months Supply of Inventory (MSI), also known as Absorption Rate, is the number of months it would take to sell through the units available for sale at the current monthly sales rate. The National Association of REALTORS® describes a balanced market as between 5 and 7 months supply of inventory (MSI).

New Contracts is the number of properties newly under contract in a given month or time period.

New Listings is the number of properties listed in a given month or time period.

Percent of Ask Price Received is the average of the Sales Price divided by the most recent Ask Price, and expressed as a percentage.

Units Sold is the number of properties which actually Sold within a given month or time period.
